

BEL-VER[®] SPINDLE-PIN

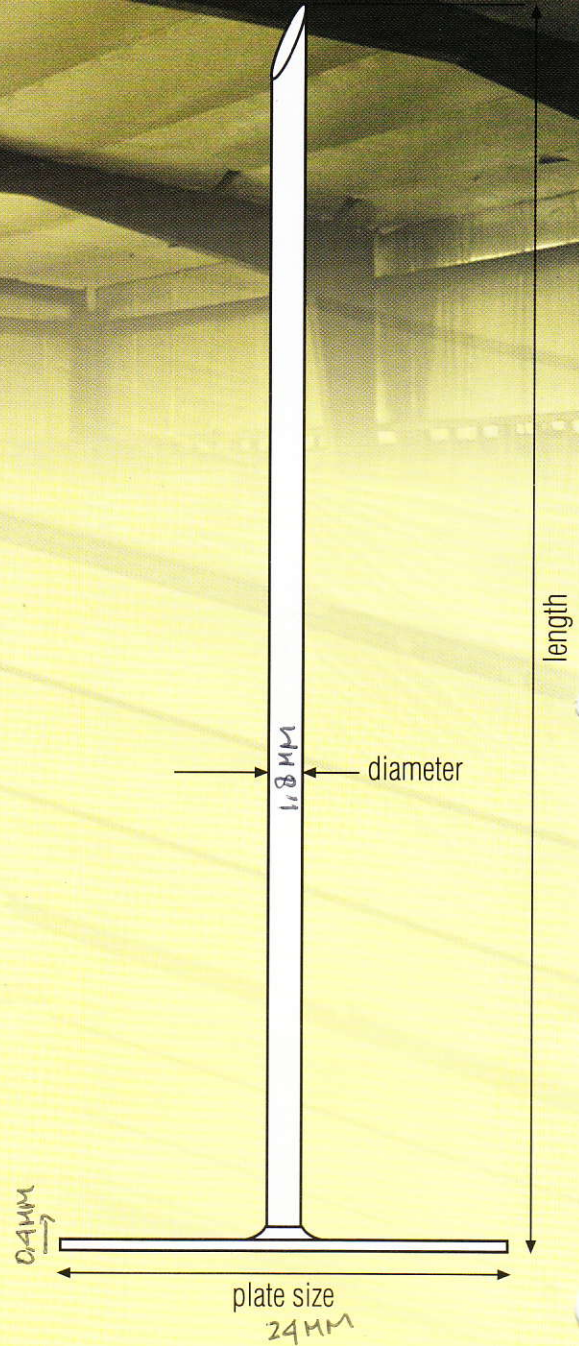

EASIER
YOUR
INSULATION
WORKS

The flexible spindle type fastener
for heat and cold insulation work

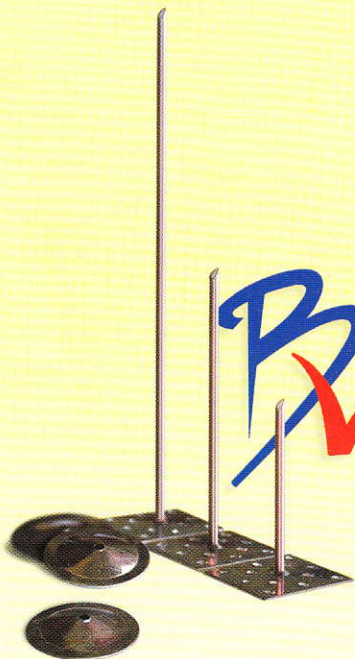

What's in **BEL-VER® SPINDLE-PIN**

- Diameter of pin is 1.8 mm for 38 mm and 65 mm length.
- Plate size is 24 mm for all length.
- Plate thickness is 0.4 mm for all length.
- Other types of spindle-pin set are available upon request.
- Every box of BEL-VER Spindle-Pin contains 1,000 sets of spindle and washer.
- The self-sticking type should be used for the temporary installation.
- When the spindle is installed on the vibratory surface such as the air chamber, the vibration might cause fatigue rupture on the spindle. Contact us for advice before you start such job.

**4 tubes BV-70
Adhesive for fastening system
includes in each box.***

* Curing time is approximately 24 hours under normal conditions.
